Subject: Label Amendment – To update label
Product Name: Auto-Chlor Solution QA
EPA Registration Number: 6243-1
Application Date: February 8, 2018
Decision Number: 538535

Dear Ms. Jackson:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Emilia Oiguenblik by phone at

Auto-Chlor System
746 Poplar Avenue
Memphis, TN 38105
901-579-2300

Note to Agency: Text appearing in parenthesis is done to show optional text.

Use Auto-Chlor Solution QA in hospitals, nursing homes, restaurants, bars, institutional kitchens, hotels and motels, schools, penal and military institutions. This product is an effective sanitizer. This product can be used on hard, nonporous surfaces such as: walls, floors, countertops, stainless steel surfaces, dishes, cooking utensils, silverware, glassware, appliances and sinks.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SANITIZING FOOD CONTACT SURFACES

When used as directed this product is an effective sanitizer at an active quaternary concentration of 200 ppm in hospitals, nursing homes, restaurants, bars and institutional kitchen against *Staphylococcus aureus*(ATCC 6538) and *Escherichia coli*(ATCC 11229).

For sanitizing and cleaning of equipment and utensils, prepare a 200 ppm active quaternary solution by adding 0.5 ounce of this product to 1 gallon of water (or equivalent dilution). Prior to application, remove gross food particles and soil by a pre-flush, or pre-scrape and, when necessary, pre-soak treatment. Follow with thorough washing in a good detergent or compatible cleaner, followed by a potable water rinse before applying sanitizer. Apply use-solution to dinnerware and food utensils by immersion. For items which are too large for immersion, solution may be applied with a cloth, mop, sponge or coarse sprayer. Treated surfaces must remain wet for 60 seconds (1 minute). Drain thoroughly and allow to air dry before reuse. No potable water rinse is required after application of sanitizer.

Fresh solution must be prepared at least daily or sooner if solution becomes diluted or soiled.

At ½ ounce per gallon of water, this product fulfills the criteria of Appendix F of Grade "A" Pasteurized Milk Ordinance, 2001 Recommendations of the U.S. Public Health Service in water up to 550 ppm (32 grains per gallon) hardness calculated as CaCO₃ when tested by the AOAC Germicidal and Detergent/Sanitizing Official Method.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Do not store on side. Avoid creasing of side walls. Keep this product in locked storage sufficient to make it inaccessible to children and persons unfamiliar with its proper use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of all excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label directions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representatives at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times. Follow Pesticide Disposal instructions for

Note to Agency: Text appearing in parenthesis is done to show optional text.

rinsate disposal. Offer for recycling if available or puncture and dispose of in a sanitary landfill or by incineration.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER

Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear protective eye wear (goggles, face shield, or safety glasses) and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

(for containers of 5 gallons or more)

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.
